General Notice No. 98 of 2026.

THE COMMISSIONERS FOR OATHS (ADVOCATES)
ACT COMMISSION
NOTICE

TO ALL TO WHOM THESE PRESENTS MAY COME,
GREETINGS

BE IT KNOWN THAT on the **12th** day of **December, 2025**, **MWANJE LAWRENCE**, an Advocate of the High Court has been appointed to be a Commissioner for Oaths under the above mentioned Act for so long as he continues to practice as such Advocate and the Commission is not revoked.

Given under my hand and the seal of the Court this **12th** day of **December, 2025**.

.....
ALFONSE CHIGAMOY OWINY - DOLLO,
Chief Justice.

General Notice No. 99 of 2026.

THE COMMISSIONERS FOR OATHS (ADVOCATES)
ACT COMMISSION
NOTICE

TO ALL TO WHOM THESE PRESENTS MAY COME,
GREETINGS

BE IT KNOWN THAT on the **23rd** day of **July, 2025**, **TUKWASHIBWE DERRICK**, an Advocate of the High Court has been appointed to be a Commissioner for Oaths under the above mentioned Act for so long as he continues to practice as such Advocate and the Commission is not revoked.

Given under my hand and the seal of the Court this **23rd** day of **July, 2025**.

.....
ALFONSE CHIGAMOY OWINY - DOLLO,
Chief Justice.

General Notice No. 100 of 2026.

THE COMMISSIONERS FOR OATHS (ADVOCATES)
ACT COMMISSION
NOTICE

TO ALL TO WHOM THESE PRESENTS MAY COME,
GREETINGS

BE IT KNOWN THAT on the **12th** day of **December, 2025**, **AGUMENAITWE JOAN**, an Advocate of the High Court has been appointed to be a Commissioner for Oaths under the above mentioned Act for so long as she continues to practice as such Advocate and the Commission is not revoked.

Given under my hand and the seal of the Court this **12th** day of **December, 2025**.

.....
ALFONSE CHIGAMOY OWINY - DOLLO,
Chief Justice.

General Notice No. 109 of 2026.

STANDADISED FEED-IN TAFIFFS FOR RENEWABLE ENERGY GENERATING PLANTS UPTO FIFTY (50) MEGAWATTS-OHASE VI (EXTENTION OF THE REFIT PHASE VI)

Under Section 9 (q) and 75 (1) of the Electricity Act, Cap 157

NOTICE IS HEREBY GIVEN, that pursuant to Section 9 (q) and 75 (1) of the Electricity Act, Cap 157, the Electricity Regulatory Authority has herein prescribed the standardised Feed-in Tariffs for Renewable Energy Systems generating up to a maximum capacity of **50 MW** in Uganda.

1. EFFECTIVE DATE.

- 1.1. The REFiT shall take effect on the date of publication of this notice.
- 1.2. The REFiT shall remain in force for a period of **one year** from the date of commencement unless otherwise revised in line with the provisions of the Electricity Act, Chapter 157 Laws of Uganda.
- 1.3. Notwithstanding, the provisions of Clause 1.2, the REFiT herein shall cease to be in force on the **5th of January 2027**.

2. APPLICATION.

- 2.1. The REFiT shall apply to Hydropower, Bagasse, Biogas, Landfill Gas, waste-to-energy/Biomass, Solar PV, Wind Power, and Geothermal Technologies in the capacities described below –

Technology	Installed capacity range
Hydropower	0.5-5 MW
Hydropower	5-50 MW
Bagasse	0.5-50 MW
Biogas	0.5-20 MW
Landfill gas	0.5-20 MW
Waste to Energy/Biomass	0.5-20 MW
Solar PV	0.5-50 MW
Wind power	0.5-20 MW
Wind power	20.5-50 MW
Geothermal	0.5-20 MW

2.2. Qualifying RE generators shall be defined as:

- (a) Projects greater than 0.5 MW installed capacity, in line with the Electricity Act;
 - (b) Projects up to 50 MW installed capacity, or such other capacity as may be determined by the Authority, in line with the Electricity Act; or
 - (c) An electricity generation plant including additional capacity resulting from project modernization, repowering, and expansion of existing sites, but excluding existing generation capacity. Additional generating capacity must be ring-fenced.
- 2.3. Projects with an installed capacity greater than 50 MW will be required to negotiate a tariff and PPA with the System Operator, on a case-by-case basis.
 - 2.4. To avoid projects larger than 50 MW installed capacity splitting their capacity to take advantage of the REFIT, all projects must have a distinct legal entity. All leases, consents, and licenses related to the project must be associated with this legal entity and cannot be shared with other projects submitted under the REFIT.

3. DEFINITIONS

In this document, unless the context otherwise requires, the following words and expressions shall have the following meanings:

‘Act’	means the Electricity Act, Chapter 157, Laws of Uganda
‘Authority’	Means the Electricity Regulatory Authority established by Section 3 of the Act

‘Avoided Cost’	Means the marginal cost for the same amount of energy acquired through another means such as construction, finance, and operation of a new efficient generation facility at baseload conditions, or purchase from an alternate supplier, including the cost of infrastructure upgrades
‘Capital Costs’	Means costs incurred before operation of the Power Plant. These usually include design, preparation and planning, civil works, purchasing of equipment, and overhead. They are typically expressed as an ‘all-in-cost’ that includes interest during construction. The typical share of each capital cost component varies by Technology. All capital costs assumed for the REFiTs are total installed costs and include interest during construction.
‘Debt costs’	Includes both loan repayments, based on the loan period and interest costs. Interest costs are calculated for the construction period (interest during construction). Borrowing costs include an amount set aside for the debt service reserve account.
‘Feed-in Tariff (FiT)’	means a regulatory mechanism used to promote and increase the amount of electricity generated from renewable sources by providing a fixed tariff based on the levelized cost of production for a guaranteed period of time.
‘Fixed O&M costs’	Means costs that are incurred annually, regardless of the amount of electricity Generated including general overhead costs like a lease on office space, land lease, and staff salaries.
‘LCOE’	Means the price at which electricity must be Generated from a specific source to break even. It is an economic assessment of the cost of the Energy-Generating System including all the costs over its lifetime including the initial investment, operations and maintenance, cost of fuel, and cost of capital.
‘Maximum Technology Capacity Limit’	Means a cap on the total amount of newly installed generation capacity for a particular renewable energy technology.
‘PPA’	Means the Power Purchase Agreement executed by the Generating Company and the bulk purchaser of electricity.
‘REFiT’	Means the prescribed Renewable Energy Feed-in Tariff by the Authority.
‘Return on equity’	Means the cost typically expressed by investors in post-tax nominal terms.
‘Renewable energy’	Means electricity which can be generated from energy resources such as water power, wind power, solar energy, geothermal energy, biogas and landfill gas combustion, and biomass cogeneration. Renewable energy harnesses naturally occurring non-depletable sources of energy, such as solar, wind, biomass, hydro, tidal, wave, ocean current, and geothermal, to produce electricity, gaseous and liquid fuels, heat, or a combination of these energy types.
‘Shallow connection’	Means connection works limited to connecting the plant physically to the nearest point of the electricity distribution grid at the appropriate voltage level, with network reinforcements borne by the System Operator or Licensed Distributors, as applicable
‘Variable O&M costs’	Means the running costs of the plant, linked to the amount of energy Generated.

4. OBJECTIVE

- 4.1. The REFiT is designed to encourage and support greater private sector participation in power generation from Renewable Energy Technologies (RET), through the establishment of an appropriate regulatory framework.

This is in line with the Energy Policy, 2023, whereby the Government of Uganda’s policy vision is, “Achieve Universal Access to Sustainable, Affordable and Quality Energy Services for All Ugandans by 2040”
