General Notice No. 140 of 2015.

MINISTRY OF ENERGY AND MINERAL DEVELOPMENT

Announcement of the First Licensing Round for Petroleum Exploration in Uganda.

2,983 Km² of high potential acreage offered for licensing.

In accordance with the powers bestowed upon me by the Petroleum (Exploration, Development and Production) Act of 2013, I wish to announce the first open competitive licensing round for petroleum exploration in Uganda. This licensing round will cover six blocks in the Albertine Graben which is a proven prospective sedimentary basin. Uganda's first licensing round is guided by the National Oil and Gas Policy for Uganda (2008) and the Petroleum (Exploration, Development and Production) Act, 2013.

The main objectives of implementing the license round are:

- to attract additional investment in the country's oil and gas sector;
- expand the country's resource base which is currently estimated at 6.5 Billion barrels oil in place, and thus increase the revenue base;
- enhance the country's sustainability of oil and gas production; and
- respond to the significant number of investors who have expressed interest in investing in the country's oil and gas industry.

The six blocks on offer are;

- The Turaco Block in the Semliki area (Ntoroko District) covering an area of 425 Km².
- The Kanywataba Block in Semliki area (Ntoroko District) covering an area of 344 Km².
- The Ngassa block (Hoima District) which covers an area 410 Km².
- The Taitai and Karuka block (Buliisa District) covering 565 Km².

- The Ngaji block (Rukungiri and Kanungu Districts) which covers 895 Km²; and
- The Mvule prospect area (Obongi and Yumbe Districts) with a size of 344 Km².

Stratigraphic Licensing will be applicable to some of these blocks.

The Ministry will issue a Request for Qualification (RFQ) inviting interested firms and/or consortia to submit Statements of Qualifications within a period of not less than 3 months for government to determine their eligibility to participate in this first licensing round. The qualifying firms will then be issued a detailed Request for Proposals (RFP) which will be evaluated by the Government. The companies submitting the best evaluated Proposal/Bid for each of the blocks will proceed to negotiations with the Government prior to signing the Production Sharing Agreements. The licensing round is expected to be concluded with the award of Petroleum Exploration Licenses to successful firms in the fourth quarter of 2015.

Licenses accruing from this process will be subject to state participation and Government will specify its maximum share prior to granting the Petroleum Exploration Licences.

Cng.

ENG. IRENE MULONI (MP)

Minister of Energy and Mineral Development.
