General Notice No. 2417 of 2026.

THE TRADE MARKS ACT

(Cap. 225)

NOTICE

Notice is hereby given that any person who has an objection to the registration of any of the marks advertised herein, may within sixty (60) days from the date of publication of this Gazette lodge a Notice of opposition. This may be done by completing Trade Mark Form No. 7 or by using the online application platform at https://iponline.ursb.go.ug/sp-ui-eservices/tm-opposition.htm?execution=e1s1

The prescribed fees for filing a Notice of Opposition are UGX 100,000 for local applicants and USD 250 for foreign applicants.

Upon receipt of the Notice of Opposition, the Registrar of Trademarks will communicate with the trademark applicant, who may respond accordingly. Both parties will have the opportunity to present their cases in a hearing before the Registrar issues a final decision.

For further assistance, please contact or visit the Uganda Registration Services Bureau (URSB) at: Uganda Business Facilitation Centre, Plot 1 Baskerville Avenue, Kololo, P.O. Box 6848 Kampala, Uganda

(510) *Nature of Goods/Services:*— Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus; downloadable e-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; downloadable software and mobile application software providing a virtual marketplace; downloadable software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; downloadable virtual reality software; downloadable augmented reality software; downloadable mixed reality software; downloadable virtual reality software for interactive entertainment and virtual reality gaming; downloadable augmented reality software for interactive entertainment and augmented reality gaming; downloadable software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; downloadable software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; downloadable software for navigating a virtual reality and augmented reality environments; downloadable software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; downloadable software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; downloadable software for use in creating and designing virtual reality and augmented reality software; downloadable application programming interface (api) for computer software for developing virtual reality and augmented reality experiences; virtual reality game computer hardware; augmented reality game computer hardware; mixed reality game computer hardware; virtual reality computer hardware; augmented reality computer hardware; downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; downloadable software to allow users to perform e-commerce transactions via the internet and communications networks; downloadable computer software that allows users to make payments and transfer funds; downloadable computer software that enables online users to make payments and transfer funds across multiple websites and mobile applications; downloadable computer software for processing electronic payments; blockchain software; downloadable software in the field of blockchain; downloadable software for use with digital currency, crypto currency and virtual currency; digital currency wallet and storage services software; downloadable computer software for use as a cryptocurrency wallet; cryptocurrency hardware wallet; downloadable computer software for use as a digital wallet; downloadable computer software for use as an electronic wallet; downloadable computer programs and downloadable computer application software for electronic storage of data; downloadable software for providing a digital wallet; downloadable software for digital currency payment and exchange transactions; downloadable software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for electronic wallet services; downloadable e-wallets; downloadable distributed ledger platform software; downloadable software for use with distributed ledger technology: downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for implementing and recording financial transactions; downloadable software for use in financial trading; downloadable software for use in financial exchange; downloadable software for accessing financial information and market data and trends; downloadable software for providing authentication of parties to a financial transaction; downloadable software for maintaining ledgers for financial transactions; downloadable software for the management of cryptographic security of electronic transmissions across computer networks; downloadable software for encrypting and enabling secure transmission of digital information over the internet; downloadable software for allowing users to calculate parameters related to financial transactions; downloadable software for electronic funds transfer; downloadable software for currency conversion; downloadable software for the collection and distribution of data; downloadable software for payment transactions; downloadable software for connecting computers to local databases and global computer networks; downloadable software for creating searchable databases of information and data; downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; downloadable software for creating and managing smart contracts; downloadable software for managing payment and exchange transactions;

downloadable software and hardware for use as a digital currency wallet, virtual currency walled, digital asset wallet, crypto token wallet, and utility wallet; downloadable software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; downloadable computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; downloadable software for creating, selling and managing blockchain-based tokens or appoins; downloadable software for use in an electronic financial platform; downloadable software for processing electronic payments and for transferring funds to and from others; blockchain platform software; downloadable software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; downloadable software for creating and managing a blockchain platform for use in managing digital currency irtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token crypto token and utility token accounts; downloadable software for managing crypto currency and digital currency accounts; downloadable software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; downloadable software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; downloadable software and hardware for use in electronically exchanging urrency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use as an application programming interface (api) for the development, testing, and integration of ockchain software applications; computer hardware for digital currency, virtual currency, yptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; downloadable software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (pda), and web-based environment; downlondable software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; downloadable software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; downloadable software for use as an application program interface (api) software for use in computer hardware device identification; downloadable software for use in. authenticating user access to computers and computer networks; downloadable software for use in facilitating secure transactions; downloadable software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; downloadable software for network identification verification, authentication and management services for security purposes; downloadable authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; encryption devices; security tokens; downloadable software for use as a security token; downloadable software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; crypto tokens and utility tokens; downloadable software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable application programming interface (api) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; downloadable augmented reality software for interactive entertainment; downloadable augmented reality software for navigating an augmented reality environment; downloadable augmented reality software for object tracking, motion control and content visualization; downloadable augmented reality software for operating augmented reality headsets; downloadable augmented reality software for users to experience augmented reality visualization, manipulation and immersion; hardware and downloadable software to view virtual images in creating virtual, augmented and mixed reality; downloadable mixed reality software for interactive entertainment; downloadable mixed reality software for navigating a mixed reality environment; downloadable mixed reality software for object tracking, motion control and content visualization; downloadable mixed reality software for operating mixed reality headsets; downloadable mixed reality software for users to experience mixed reality visualization, manipulation and immersion; downloadable software for ordering and/or purchasing goods and services; downloadable software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; downloadable software for use as an application programming interface (api); downloadable software for use in creating and designing virtual reality, augmented reality and mixed reality software; downloadable virtual reality software for interactive entertainment; downloadable virtual reality software for navigating a virtual reality environment; downloadable virtual reality software for object tracking, motion control and content visualization: downloadable virtual reality software for operating virtual reality headsets; downloadable virtual reality software for users to experience virtual reality visualization, manipulation and immersion; downloadable virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; electronic display interfaces, and downloadable software for the generation and display of virtual reality and mixed reality content; downloadable computer software in the nature of non-fungible tokens; downloadable computer software for creating digital tokens using blockchain technology to facilitate the transfer of data between users to allow users to post, access and view digital content; downloadable computer software for the electronic exchange of digital tokens; downloadable computer software for use in electronically trading, storing, sending, receiving, accepting, and transmitting digital currencies and non-fungible tokens; downloadable computer software for managing digital currency payment and exchange transactions;
